DIRECTIONS

Don't let the definitions scare you. If you can guess five or six of these WORDS correctly, you should be able to solve the Double-Crostic . . . When you've guessed a WORD, fill in the dashes, and also write each letter in its correspondingly numbered square in the diagram. When all the squares are filled in, you will have a quotation from a published work. Dark squares indicate the ends of words. If there is no dark square at the right side of the diagram, the word carries over to the next line . . . You should be able to see words and phrases begin to form in the diagram on the basis of having just a few letters. Enter the letters you can guess into the diagram and the blanks in the defined WORDS, and you'll find yourself working from WORDS to diagram and back, solving the puzzle . . . The initial letters of the defined WORDS spell the name of the author and the title of the work from which the quotation was taken. This acrostic feature can be very helpful to the solver.

Solution of last week's Double-Crostic will be found on page 17 of this issue.

Highballing down a track to disaster

If the railroads should cease to exist, the United States of America as you know it would grind to a paralyzing halt.

You would soon have very little to eat.

And no electricity to light your house. Or heat it. Or pump water into it.

Your job would wither away.

You'd have no television, no radio, no telephone, no newspaper to tell you what was going on.

And try as they might, the trucks, the pipelines, the airplanes, the barges would not be able to fill the gaping demand.

Chaos, even rule by panic, might erupt.

Fanciful?

Not in the least, if the railroads are allowed to die. And right now, some of our railroads are on a fast track to disaster.

The railroads need our help. And we all need the railroads...strong, healthy, and free to retain their vital place in our free enterprise system.

So, let us all do something about it. Write to your senators and congressmen. Tell them how you feel about the importance of keeping our railroads alive.
